EDUCATION

2021 - 2025
FOUNDATION UNIVERSITY

- Bachelor of Science in Information Technology
- GPA: 3.56/4.0

SKILLS

- Mobile Development
- Web Development
- Full Stack Development
- Database Management
- Project Management
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

PROGRAMMING LANGUAGES & FRAMEWORKS & LIBRARIES

- JavaScript
- MUI
- React Native
- CSS
- React
- asp.net
- HTML
- Django (Python)

PROFILE

Versatile and results-driven **Full-Stack Developer** with hands-on experience in building scalable **mobile** and **web** applications using **React Native**, **React.js**, **Node.js**, **Django**, and **.NET HTML5**. Skilled in crafting intuitive user interfaces with **MUI**, integrating robust backends, and managing real-time data with **Firebase** and **SQL/NoSQL** databases. I bring a strong **problem-solving** mindset, a passion for clean, maintainable code, and a commitment to delivering **high-quality** solutions on time. Focused on user experience, technical excellence, and continuous **growth** in the ever-evolving tech landscape.

WORK EXPERIENCE

MaxRemind Inc.

AUGUST 2025 - PRESENT

Mobile App Developer

- Designing, developing, and maintaining cross-platform mobile applications using React Native for both iOS and Android.
- Collaborating with UI/UX teams to build intuitive, high-performance interfaces aligned with modern design standards.
- Integrating RESTful APIs, Firebase, and third-party libraries to ensure seamless functionality and scalability.
- Writing clean, maintainable, and reusable code while optimizing performance and app responsiveness.
- Actively participating in code reviews, troubleshooting, and feature enhancements to improve product stability and user experience.

MaxRemind Inc.

MARCH 2025 - AUGUST 2025

Web Developer

- Developed and maintained enterprise-level web interfaces using **ASP.NET** Web Forms, **HTML5**, and **JavaScript**, ensuring responsive and user-friendly UI designs.
- Collaborated with cross-functional teams to implement dynamic dashboards, enhance **UI/UX**, and integrate **backend logic** for seamless data flow.
- Optimized and refactored legacy components for performance, scalability, and cross-browser compatibility, improving system efficiency and maintainability.

MaxRemind Inc.

Sep 2024 - March 2025

Full-stack Developer (Internship)

- Contributed to the development of **full-stack** features using **React Native**, **React.js**, **MUI**, and **Node.js**, gaining hands-on experience in building mobile and web apps.
- Implemented dynamic components, **RESTful API** integrations, and **Firebase**-based real-time data syncing in production-level applications.
- Collaborated in **Agile sprints**, fixed bugs, and wrote clean, modular code while learning industry-standard practices in **version control**, **testing**, and deployment.

LANGUAGES

- English
- Urdu

Fiverr.

2022 - 2024

Data Visualization

- Designed and delivered interactive dashboards and visual reports using tools like **Python (Matplotlib, Seaborn)** and **Tableau** to help clients extract insights from raw data.
- Translated complex datasets into clear **visual** stories, improving client **decision-making** and **business strategy** presentations.

CERTIFICATIONS

OpenWeaver Python Programming

Verification No: 44399117652011

Instructor Pooja Agrawal

Python Data Science Fundamentals - Udemy

Instructors Academy of Computing & Artificial Intelligence

ACHIEVEMENTS

- Secured 1st Position in Batch for outstanding academic performance during my degree BSIT.
- Achieved 3rd Position in University Open House for Final Year Project titled OFF (Brand Awareness App) at FUSST.

PROJECTS

1. OFF (Brand Awareness App)

A cross-platform shopping application for Android and iOS

- Designed to bring online shopping advantages to physical store customers, offering product browsing and doorstep delivery.
- Enables local and multi-store businesses to reach a wider audience and compete with major online platforms.
- Developed with a focus on usability, accessibility, and smooth user experience.
- Technologies: React Native, Firebase, Node.js

2. Real-Time Chat App

A secure and scalable cross-platform chat application

- Built using React Native (Expo), Django, and SQL Server.
- Features real-time messaging, user authentication, and message encryption.
- Utilized WebSockets for seamless two-way communication.
- Technologies: React Native, Django, SQL Server

3. E-Commerce Website

A responsive web-based online store with admin panel

- Developed using React.js and Material UI with modern UI design principles.
- Includes product filtering, cart management, and admin product control.
- Fully responsive and optimized for desktop and mobile devices.
- Technologies: React.js, Material UI, JavaScript

4. Children Learning Game

Interactive educational game for early learners

- Developed with PHP, HTML, CSS, and MySQL.
- Includes interactive learning activities and progress tracking.
- Built to provide a fun, engaging, and educational experience for children.
- Technologies: PHP, HTML, CSS, MySQL

5. Quiz App

A responsive web quiz application with score tracking

- Built using React.js and MUI, fully responsive across devices.
- Supports multiple question types, real-time scoring, and result display.
- Deployed on Vercel for global access and performance.
- Technologies: React.js, JavaScript, Vercel

6. Portfolio Website

A personal portfolio showcasing projects, skills, and resume

- Built with React.js, featuring dark/light mode and smooth animations.
- Includes project filtering, GitHub integration, and responsive design.
- Designed for a professional and interactive presentation of skills.
- Technologies: React.js, HTML, CSS, Bootstrap

7. TB Diagnosis App (Client Project)

A medical support Android app for tuberculosis diagnosis assistance

- Built in Java and XML using Android Studio.
- Features symptom assessment, medical data visualization, and patient record management.
- Supports integration with healthcare providers for diagnosis tracking.
- Technologies: Java, XML, Android SDK

8. Shop Management App (Client Project)

A mobile inventory and sales management system

- Developed with React Native (Expo) for Android and iOS.
- Supports inventory tracking, sales reports, and customer database integration.
- Includes offline capability with data synchronization.
- Technologies: React Native, JavaScript, Expo

9. Attendance & Duty Module (Client Project)

A mobile-first solution for attendance and duty management

- Built using React Native with a clean, user-friendly UI.
- Enables real-time attendance tracking, duty scheduling, and role-based access.
- Designed for organizations to simplify workforce management.
- Technologies: React Native, JavaScript, HTML, CSS

10. Ride Booking App (Frontend) (Client Project)

A frontend UI for a ride-booking mobile application

- Developed with React Native (Expo) for cross-platform deployment.
- Includes map integration, ride history, payment gateway UI, and driver-rider interface.
- Focused on a smooth, intuitive, and modern user experience.
- Technologies: React Native, Expo, Maps API
